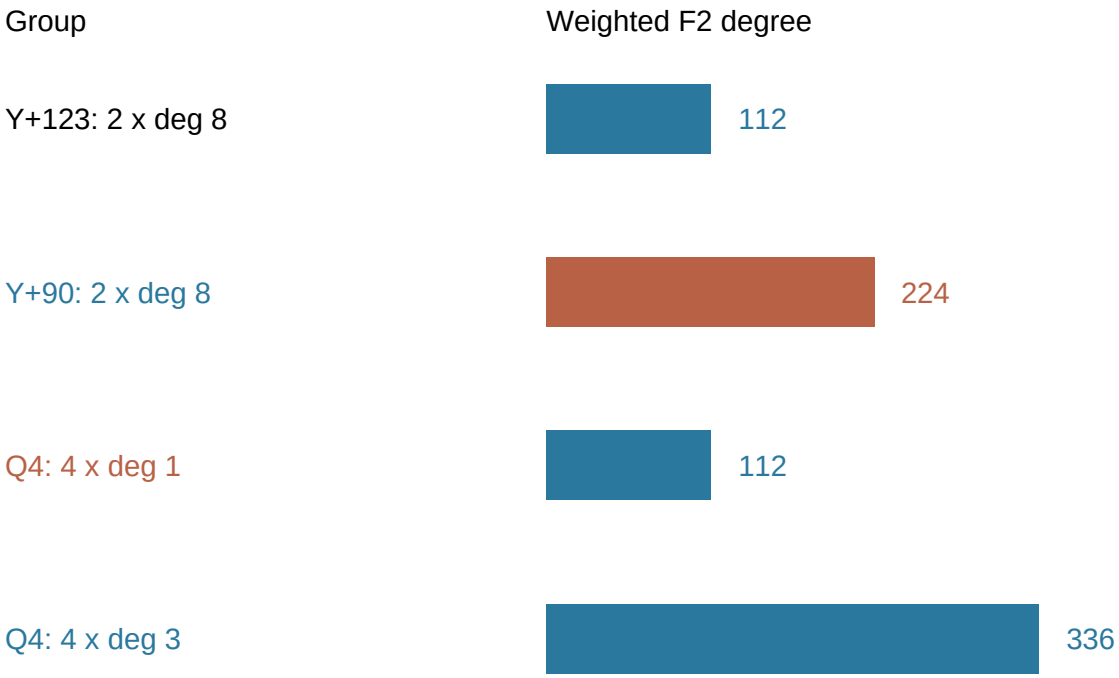
R130: degree-7 lambda fiber of the degree-112 source

Twelve normalized places; all lambda derivatives are units



Total weighted x-fiber degree: 784 = 112*7.

Checks: independent factor degrees, source coefficients, byte replay, Lean sums.

Result SHA-256: 27a0c684f1dd41bb02f33e6d2943626a11ee27832a424c58eee24d0f69383cf2

Next: N51 valuations on these twelve places.
