R120: second F4 translation of marked23 repeated edges

5 November 2026 | exact R119 supports | three base places

Translate Z=s^m(beta+W) on the remaining eight-root edges.

y0_e1: translated orders [16, 16, 19, 0, 8]

y0_e3: translated orders [8, 16, 19, 0, 8]

y1_e2: translated orders [13, 9, 15, 0, 16]

y0/e1: 8 next corrections of order 2.

y0/e3: 8 next corrections of order 1.

y1/e2 splits: 1 correction of order 4, 7 of order 9/7.

Independent F4 table and finite Lean edge checks: pass.

Next: lift remaining repeated y0 edges; evaluate N51.
