One SHA-pinned saved case
curve, map, coset, target
Direct substitution
18 variables / 19 equations
cubic maximum degree 12
Graph coordinates x_i = N(g y_i0)
22 variables / 23 equations
cubic maximum degree 4
Exact coefficient projection
19 originals reproduced; 4 graph constraints vanish
Pending: consumer, genuine witness, admitted solver comparison
No measured solver gain or complexity bound
